

Minutes
Millis Energy Committee
June 6, 2016
Millis Library Public Library
961 Main St., Local History Room
Millis, MA 02054 6:30 PM

Attending:

Craig Gibbons, Kathleen Streck, Gary Babin, Robert Weiss (Town Energy Manager),

Mr. Gibbons called the meeting to order at 6:28 PM. Mr. Gibbons captured meeting minutes. Due to our inability to achieve a quorum at this meeting, our discussion focused on information needed for future meetings and a general status of in progress projects.

New Business

Mr. Weiss shared that MAPC documented their findings when evaluating vendors who could assist them with a Community Electrical Aggregation (CEA) program. This document will be circulated to the committee to support the Millis CEA evaluation process.

Old Business

The meeting minutes for the May 2nd meeting were circulated for review.

Mr. Weiss provided an update on the streetlight LED conversion project. One of the important decisions was to select the proper candle output for the new LED lighting. Mr. Weiss noted that the bulbs selected will provide equivalent lighting in the existing streetlight locations. Mr. Gibbons made a request to review any existing streetlight locations deemed deficient based on Police, Fire or DPW public safety feedback to determine if different candle output would improve safety in existing locations.

Mrs. Streck shared that she conducted an energy conservation lesson with Ms. Mellin's students at the elementary school. She will provide further details in a future meeting.

Mrs. Streck also requested an update on the 20% energy reduction plan (ERP) for the next meeting. Mr. Weiss will prepare some information accordingly.

The Meeting adjourned at 7:15 PM. The next meeting of the Committee will be July 11th at 6:30 PM pending scheduling conflicts.
